**PERSONNEL DECISIONS INTERNATIONAL VOTED “MOST INFLUENTIAL SOLUTIONS” BY GOVERNMENT ATTENDEES OF HRGOV/LEARNINGGOV 2005**

**MINNEAPOLIS** – Personnel Decisions International (PDI) recently was voted "Most Influential Solutions" by government attendees of the hrGOV/learningGOV 2005 conference.

“Winning this award is a great accomplishment for PDI, especially given the talented competition,” said Carl Bryant, General Manager of PDI’s Washington, DC office. “We believe our focus on helping participants understand how PDI could partner with them to address their short-term and long-term needs really touched individuals and differentiated us from other participants.”

The hrGOV 2005 conference, which took place in Hot Springs, Virginia March 20 – 22, offered senior government officials in human resources a combination of keynote presentations, interactive think tanks, workshops and conference sessions aimed at providing them the training, strategies and technologies critical to achieving their objectives and building long-term results for their organizations.

Government attendees of the conference also met with human resources supplier organizations in executive meetings, which allowed officials to evaluate cutting-edge HR products and services that reduce costs, automate processes and maximize workforce performance.

###

**About Personnel Decisions International (PDI)** – PDI is a global HR consulting firm with distinctive expertise in building leadership talent that provides real competitive advantage. PDI partners with its clients to understand the talent implications of their strategy, and design and implement solutions to drive organizational performance by improving talent decisions, maximizing leadership effectiveness, minimizing risk, and increasing agility. PDI has more than 600 employees in 27 offices worldwide. Its consultants are internationally recognized for their grounding in research and the depth and rigor of their methods.
